**Broadway Colours Universal Colour Range brings you the ultimate in versatility and functionality, at market leading prices.**

All 199 colours are formulated with a 1% let down rate, for use in a wide variety of materials, which means there is virtually no product that you cannot enhance with a splash of colour.

You can be assured that:

- All masterbatch is free from heavy metals and conforms to EN71 and AP(89)1 regulations
- Orders placed (Within the UK) before 12 noon are delivered the next working day
- Order quantities available as low as 1kg
- Free samples are available on request for line trials
- Order 4 or more colours at the same time and receive the next price break

The Universal Colour Range provides the means to enhance or create a product range for the entire plastics industry. Whether you are a designer, moulder, extruder or recycler – The Universal Colour Range gives you the ultimate solution.

#### COLOUR SHADES AND STRENGTH

All pigments vary in colour, strength and opacity. The formulations used in the Universal Colour Range combine the high tinting strength of Organic Pigments, with the opacity of inorganics. The hiding powers of the formulations does differ and should be tested for use in all opaque and filled polymers prior to production.

#### FOR MORE INFORMATION...

Information such as processing temperatures and polymer compatibility can be found in the Universal Colour Range brochure available on request. A current price list will also be sent with the brochure.

We also have a set of colour plaques available, for all 199 colours. Please either call us on the number below and speak to one of our friendly team. Or simply complete our request information section on our website.
